MADD Nebraska Court Monitoring Briefing 2011

Introduction

Sates can have strong laws and tough enforcement but without consistent outcomes in the court system the message that drunk driving is a serious crime may get lost. The court system is our society's mechanism for determining an individual's guilt or innocence. It also sets the parameters of an offender's punishment, restitution and rehabilitation.

A Look at Drunk Driving in Nebraska

In Nebraska, 34 percent of the fatal crashes were alcohol-related representing a rate lower than the national average. This number has not lowered over the last three years. In fact it has remained relatively flat. MADD and Highway Safety Advocates can do more to not only maintain, but lower the number of alcohol-related motor vehicle crashes on our roadways by addressing the number of arrests and convictions for original offense. In 2007 through 2009 there were 13,437, 13,660, and 13,399 Driving Under the Influence (DUI) arrests, and 10,711, 11,504 and 11,520 alcohol-related convictions, respectively. Twenty-two counties have been identified by NOHS and the MADD Court Monitoring Program. MADD focused specifically on those priority counties looking at arrests, convictions and observes any trends in amending original citations. The twenty-two counties were as follows: Adams, Box Butte, Buffalo, Cass, Custer, Dawson, Dodge, Douglas, Gage, Hall, Lancaster, Lincoln, Madison, Otoe, Platte, Saline, Sarpy, Saunders, Scotts Bluff, Seward, Washington and York.

The Case for Court Monitoring

Research has shown that first-time DUI offenders have driven drunk an average of 87 times before they are arrested (Zader, Krawchuk, Moore, 1997). The primary reason drivers continue to drive drunk is because they can. Nationally, about one-third of all drivers arrested for DUI have had a previous drunk driving conviction, which is similar to Nebraska's rate. Across the country, DUI cases are often handled inconsistently, amended to a lesser charge, or simply dismissed by the justice system. MADD Nebraska advocates for swift and equitable treatment for all DUI cases.

MADD's Court Monitoring Program (CMP) was designed to ensure that DUI arrests are prosecuted, unwarranted dismissals are decreased and justice is achieved. Goals of the CMP are to:

- Compile pertinent information on how DUI court cases are handled from county to county.
- Share mutual concerns about the outcomes of criminal cases with professionals in the legal arena.
- Report information gathered by trained volunteers to relevant entities and community members to ensure the system can be maintained and improved.

To achieve these goals, MADD Nebraska utilized trained volunteers to observe court procedures and collect pertinent information in DUI cases. Types of data collected included offense type, age and gender of the offender and sanctions imposed. MADD also worked closely with law enforcement, prosecutors and vested partners to relay data collected from the

court monitoring program to show trends, patterns and behaviors when it comes to drunk driving enforcement and prosecution in those counties.

County Selection

The twenty-two priority counties for the MADD Court Monitoring Program/Statewide Initiative account for 1,463,302 residents or 80.4% of the Nebraska population. Target population will consist of offenders arrested for DUI. Residents will benefit from a statewide court monitoring program focused on the criminal justice system, sentencing outcomes and victims' rights. MADD will work closely with law enforcement, prosecutors, court personnel and vested partners to collect data for an annual briefing on the court monitoring program to show trends, patterns and behaviors when it comes to drunk driving enforcement and prosecution across the state and specifically the twenty-two priority counties.

Quantitative Data Collection

Court Monitoring Program data were obtained from two sources: court trial forms, completed by MADD Nebraska staff and volunteers, and the Nebraska Trial Courts Case Search System database, hereafter called Justice. CMP volunteers included concerned community members, college students interested in volunteering and/or requiring internship hours for a class, and retired adults. Data from the court trial forms were collected from four categories: 1) case information, 2) charges, 3) sanctions/sentence and 4) comments. Examples of case information included defendant name, date of birth and name and location of court. Charges recorded included the original charge, final charge, amended, and arresting agency. Examples of sanctions/sentences imposed included jail time, fines, ignition interlock, license suspension/revocation, and probation.

Information collected by court program monitors were verified by MADD Nebraska CMP staff through records accessed from Justice. This database provided a detailed record of each DUI case presented to the court. Case information, charges, and sanctions imposed were available through the Justice system. Data obtained from the Justice database was compared to information recorded on the court trial form to assure accuracy of data collection by court program monitors.

Case files with Case Year 2010 were utilized for the data collection. As close to one hundred percent of all cases were included in the analysis if a county had 300 or fewer DUI arrests in the year of interest for analysis. If a county had more than 300 DUI arrests (i.e., Hall County) a random number of cases, for a total of close to 250 were chosen for analysis for expedited data analysis.

Data Analysis

Data from closed and misdemeanor DUI cases with sanctions imposed were entered into Microsoft Excel spreadsheets for analysis. Variables of interest for this report included rulings, number and type of amended cases, length of case, offender age and gender, offense type, and sanctions imposed. Data were reported by frequencies, percentages, and averages. Qualitative data from interviews and surveys were analyzed using thematic analysis.

County Demographics 2010:

The table below shows a comprehensive count for all twenty-two counties, including gender and age breakdowns. Total counts and the overall average age are also included. Females comprised 28% of all DUI offenders from the analyzed cases. This number is up from the 21% of female offenders in the 2009 data that was analyzed. The average age of DUI offender remains consistent at 33 years old.

DUI Conviction Rates 2010:

The average conviction rate for all twenty-two counties was 85%. Lancaster County had the highest conviction rate at 98% and Sarpy County had the lowest rate at 45%. Sarpy counties low conviction rate is due to the DUI Diversion Program in their county. A large majority of the "Dismissed" cases are sent through the diversion program therefore showing up in Justice as "dismissed." Data included in this report were from Justice only, and open, dismissed, bench warrant, and cases transferred to Juvenile court were excluded from analysis to capture sanctioning practices of adjudicated DUI cases only.

Sanctions Imposed 2010:

Thirteen sanctions imposed for DUI offenders for each county were recorded. The sanctions included: Fines, Jail, Probation, Revoked License, Impound License, Interlock, Victim Impact Panel, Attitudinal Dynamics, AA, Alcohol Education, Community Service, House Arrest and Immobilize Vehicle. The following data regarding sanctions imposed in each county were based on data from the Justice system only. Consequently, some of the data presented, or lack thereof, may not be a complete representation of the sanction practices in each county. There may be additional sanctions included in probation orders and MADD is not able to access those records.

All twenty-two counties utilized Fines, Jail, Probation and Revoked/Impound License as a sanction for DUI offenders. Depending on the DUI offense, fines range from \$400 - \$1,000, probation ranged from 6-12 months (up to 5 years for DUI 3rd), and revoked/impounded license ranged from 60 days to 15 years for DUI 3rd.15+ cases. An interesting note, Hall County used Probation to the Court for DUI 1st – DUI 2nd offenders more than any other county.

Victim Impact Panel, Attitudinal Dynamics, AA, Alcohol Education, Community Service, were all sanctions used by Adams, Buffalo, Cass, Dodge, Douglas, Hall, Lancaster, Otoe, Platte, Sarpy, Saunders, Scotts Bluff, Seward, Washington and York counties. The following county overviews break down each county by DUI offense and sanction.

House Arrest was only utilized by Lancaster County and Immobilize Vehicle was used by only Hall and Platte counties from the analyzed cases.

Box Butte, Dawson, Custer, Gage, Lincoln, Madison and Saline counties primarily sanctioned Ignition Interlock with one or two other above mentioned sanctions, such as AA or Alcohol Education in addition to Fines, Jail and License Revocation.

The following County Overviews break down each county, showing Demographics, Age Range, Case Information, Adjudication and Amended Case Summaries. DUI type and sanctions are also included for each county.

Conclusion

Overall, Nebraska has some of the strongest DUI laws in the nation. While inconsistencies in the types of sanctions exist, overall offenders are being taken off the streets. Numerous factors impact how law enforcement, prosecutors and judges adjudicate DUI cases. These may include city ordinances, state and federal laws, technical issues with breath testing equipment and circumstances of each individual case.

Currently, there are many strong statutes and laws in place for the adjudication of DUI cases. One concern from this report is the number of cases being amended to lesser charges. An offender who is arrested for a DUI 2nd should not be allowed to plead down to a lesser charge – the offender needs to be held accountable. Another concern is the high rate of offenders taking House Arrest in Lancaster County. Offenders that take a straight sentence, for example, a DUI 1st requesting a fine and jail time is not going to receive any type of treatment and may in turn become a repeat offender.

Observations generated from this report include:

- Fines, jail probation and license revocation were enforced consistently in all counties.
- House arrest was used primarily by Lancaster County in over half of the DUI 1st, DUI 1st .15+, DUI 2nd and DUI 2nd .15+ cases.
- Ignition Interlock was sanctioned but there is no way for MADD to know if the offenders had the device installed in their car or for how long.
- The number of amended cases is an issue in some of the counties.

MADD will continue to analyze DUI cases and sanctions and build on this database. Volunteers will continue to be trained to attend court, and staff will keep talking with community partners and strengthening relationships. Education is a vital component of the Court Monitoring program.
